

Animals

By Sally Kee

(A poem written to be performed with sound effects)

Animals come in all shapes and sizes,
In different colours and different disguises.

Lions from Africa tall and proud,
Stalking their prey in their jungle surrounds.

Kangaroos hopping and jumping about,
Elephants lumber with their big long snouts.

Fish that glide so gracefully,
Birds that twitter high up in the tree.

Animals come in all shapes and sizes,
In different colours and different disguises.
