

We're Switched on near Electricity

By Sally Kee

Electricity is powerful you know,
Make it a friend and not a foe.
Please obey our golden rules,
Keep electricity, cool cool cool!

Don't overload an
adaptor, it could
start a fire!

Don't take
electrical things
into the bathroom!

Don't stick anything
into a socket!

Don't touch anything
electrical with wet
hands!

Don't leave cables
trailing!

Always switch things
off when you are not
using them!

Keep drinks away
from electrical
things!

Don't leave candles
near electrical
equipment!
